PROFESSIONAL SUMMARY

Innovative and detail-oriented Full Stack Developer with a strong foundation in computer science engineering. Proficient in both front-end and back-end technologies, with hands-on experience in developing web-based applications. Adept at utilizing modern web technologies, databases, and AI concepts to solve complex problems and improve user experience. Currently seeking a software engineer or full stack developer position to leverage skills in a dynamic development environment.

SKILLS

- Programming Languages: Python, C, C++
- Web Technologies: HTML, CSS, JavaScript
- Database Management: MySQL
- Frameworks & Libraries: React, Nodejs, ST
- Version Control: Git
- Development Methodologies: Agile, Scrum
- Soft Skills: Problem Solving, Collaboration, Communication, Time Management

PROJECTS

Studysync Page   t

Created an interactive Studysync web page using HTML and CSS to facilitate collaborative learning among students.

Employed responsive design principles to ensure usability on various devices.

University Management System

The University Management System is a versatile application developed using Java and MySQL to streamline university operations. It features role-based access for administrators, faculty, and students, ensuring secure and personalized functionality. Key modules include student management for enrollment and records, faculty management for scheduling and course allocation, and course management for seamless curriculum handling. The system automates timetables and tracks fee payments, generating detailed financial reports. With integrated analytics and reporting, it offers valuable insights for decision-making. This project demonstrates proficiency in Java programming and database management while addressing critical challenges in academic and administrative workflows.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science Engineering from Rajiv Gandhi Proudyogiki Vishwavidyalaya,Indore, 2024 of Graduation

Relevant Courses: Web Development, Database Management Systems, Software Engineering, Artificial Intelligence

CERTIFICATIONS AND AWARDS

- Responsive Web Design Certification, freeCodeCamp
- Intel AI Fundamentals Certification
- AI Course Completion Certification, HP
